

Committee on the Status of Species at Risk in Ontario (COSSARO) Assessment Results

Last assessment date: January 29, 2026

These tables provide the most recent assessment date and results for all eligible species assessed by COSSARO since the *Endangered Species Act, 2007* (ESA) was established, prior to the *Species Conservation Act, 2025* (SCA) coming into force. Per the SCA, "species" means a species, subspecies, variety or genetically or geographically distinct population of animal, plant or other organism, other than a bacterium or virus, that is native to Ontario.

Please note that a date of 2007* in the *Year of Most Recent Assessment* column denotes a species that was last assessed prior to the ESA coming into force in 2008.
